Part III REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach, disclose, or suggest the claimed limitations of (in combination with all other limitations in the claim), an image formation apparatus comprising an accuracy information storage means for storing unit curvature correction information and/or dot-pitch correction information wherein said curvature correction information is obtained based on the measurement result of the position curvature information in the scanning direction of an exposure portion of the image transfer unit and the dot-pitch correction information is obtained by measuring the dot-pitch of the exposure portion, wherein the read-out means has a means for reading out the position accuracy information from the accuracy information storage means and correcting the image information read-out position by the position accuracy information, as claimed in claim 1. Similar features are claimed in claim 13. Therefore, claim 13 is allowable over the prior art of record for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
